WE ARE DOM3

DOM3 is an association of entrepreneurs and professionals with extensive experience in the high-quality housing sector in Marbella, Estepona, and Benahavís. We share a common concern: to preserve and promote the business of designing, promoting, and constructing high-end homes in our area of influence. We believe in the importance of teamwork and collaboration to achieve this goal.

MISSION

We focus on a clear and concrete mission: to promote the development and preservation of the high-quality housing business in Marbella, Estepona, and Benahavís.

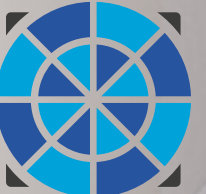

HOW DO WE ACHIEVE IT?

- By working together with entrepreneurs and professionals in the sector, public and private institutions, and collaborators, with the aim of contributing to the economic and residential tourism development of the region.
- By making an effort to promote these practices in our daily work.
- By ensuring that we have the information and resources necessary to succeed in our initiatives.
- By focusing on promoting excellence and innovation in all areas of the business and being recognized for values such as quality, social responsibility, and honesty.
- We commit to working with public and private institutions, collaborators, and partners to improve activities related to residential housing in our area.
- We encourage research, knowledge development, and innovation in all parts of the business value chain.
- We promote the exchange of experiences and information with other entrepreneurs and professionals and seek to create beneficial partnerships for the sector.
- We promote any type of study and/or initiative that contributes to a better understanding, promotion, and functioning of the sector.

VISION

We want our organization to be recognized for its commitment to sustainable development and for being a driving force for the economic and tourist growth of the region.

VALUES

DOM3 Association is governed by a set of values that guide all its actions and decisions. Professional integrity, networking and local commitment are fundamental values for us. We believe that these values are essential to promote the development of the high-quality housing sector in the Golden Triangle area. In addition, we share these values with our associates, collaborators and public and private institutions with which we work together.

TRAINING

ACTIVITIES

The Association of Entrepreneurs for High-Quality Housing organizes the "Strategic Forum DOM3." An event with a strong professional character that has become, in its multiple editions, a place for debate, analysis, and proposals aimed at improving the sector.

In our quest for innovation, we also hold the "DOM3 PRIZE" Architecture Award for the design and development of world-class homes. Its calls bring together hundreds of national and international participants.

Finally, DOM3 promotes training and debate sessions with experts in various business areas to stay at the forefront of trends in the high-end housing market.
